## NEWBORN DISCHARGE INSTRUCTIONS

Document No.: SRHMC-NSD-04-093

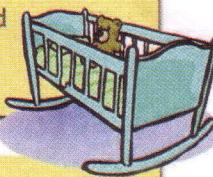

### SLEEP GUIDELINES

Always place your baby on BACK to sleep to reduce the risk of Sudden Infant Death Syndrome (SIDS)

Keep loose blankets and pillows out of bed

Don't allow anyone to smoke around your baby

### FEEDING / BURPING

Positions: Cradle, Football, Cross-Cradle, Side-Lying

Position at breast-level. Baby's mouth wide / facing breast

Breastfeed your baby 8-12 times daily. Feed on demand but awaken at least 3 hours to feed

Feed duration: 20-30 minutes

Hold baby over your shoulder or sit with neck support while patting or rubbing the infant's back

### URINATION / STOOL / DIAPERING

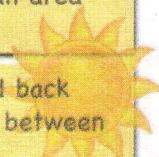

Your baby usually urinates 6 or more times daily

For breastfed babies, stool will be soft and yellow-brown with seedy / mushy consistency, 3 to 4 times daily

Use a clean area of the cloth for each wipe (front and back)

Change diaper at least with every feeding

See your attending physician as soon as possible if one or more of the following signs and symptoms is noted:

- with decreased alertness
- with decreased feeding
- if temperature is < 36.5° or >37.5°
- urination: less than 3 diapers per day
- with increased intensity of jaundice
- with discharge or redness at umbilicus
- if with less than 5 stools / week for 2 weeks or if stool leaks out of diaper

Medications to be given at home:

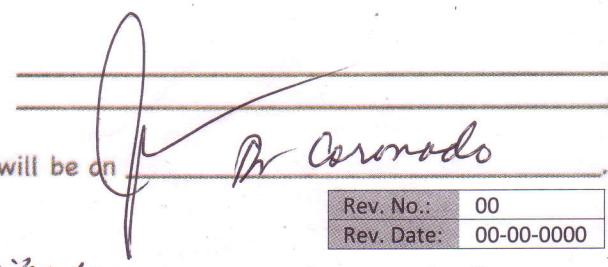

February 10, 2017

FOLLOW-UP: Your baby's first regular check-up at the clinic will be on

Sta. Rosa Hospital MW 6-8pm

Friday 3:30-5:30pm
